Programs are subject to change. Please check program section of Inside Racing before nominating
(QC) Preference in Picnic Cups will be given as below:-
Eligibility - To be eligible to nominate for a Picnic Cup a horse must have started at least once in their career in a Picnic race at a Victorian Picnic Race Meeting.
1. Horses that have had 3 or more starts in the current Victorian picnic racing season
2. Horses that have had 2 starts in the current Victorian picnic racing season
3. Horses that have had 1 start in the current Victorian picnic racing season
4. Horses that have not run in the current Victorian picnic racing season
* Starts in previously run Corinthian and Picnic Grand Final races do not count for the purposes of eligibility and ballot order.

INDUSTRY NOTICE

Unraced horses aged five years old and above

Statistical analysis has identified that horses that have not had a race start by the time they turn five years old to be at approximately 4.4 times the risk of catastrophic limb injury during racing compared to horses that have competed in a race prior to the time they turn five years old.

The calculated risk is higher again for unraced horses at six years old (7.2 times greater) and seven years old (11.9 times greater).

Because of the increased risk of catastrophic limb injury during racing for horses aged 5-years-old or older who have not previously completed a race start, trainers and owners are advised that these horses are required to complete the following steps listed below. Steps 1-4 are to be completed in order and within a reasonable time period that would reflect a routine single uninterrupted preparation:

1. Provide a satisfactory Veterinary Clearance prior to trialling (Jump Out or Official Trial). The trainer should inform Racing Victoria (RV) of any relevant information (i.e. veterinary incidents including but not limited to respiratory surgery, tendon or ligament injury, stress fractures, fractures, arthroscopy, etc) as to why the horse has not previously started in a race.
2. Horse to trial satisfactorily over the flat.
3. Provide a satisfactory Veterinary Clearance post-trial.
4. Provide a satisfactory report on a full body scintigraphy prior to racing.
5. Present for a pre-race veterinary inspection on course at first start.

Please note that further diagnostic tests may be indicated depending on the results of the scintigraphy.

EXEMPTIONS

On receipt and after consideration of an application for exemption, Racing Victoria may exempt a five-year-old horse from one or more of the protocol steps with limitations. Horses aged six or older will not be exempted from any steps. The age of any horse is calculated from 1 August of the current racing season.

Additionally, it is noted that:

1. Any horse that is unraced and has not completed the necessary steps in accordance with the protocol and has not been exempted from such steps is ineligible to commence racing in Victoria until the steps are completed to the satisfaction of the Stewards.
2. Any horse that has not completed the necessary steps in accordance with the protocol and has not been exempted from such steps and has raced in another jurisdiction may be required to complete any step, or any additional steps, as determined by RV Stewards to be eligible to commence racing in Victoria. For example, a Veterinary Clearance from a Specialist Equine Veterinarian indicating that the horse is suitable to continue to race may be required prior to racing in Victoria.
3. When a horse has been granted an exemption from any of the steps of the protocol, the Stewards may alter one or any of the remaining steps to ensure the welfare of the horse. For example, a horse granted exemption from Step 4 (scintigraphy) may still be required to obtain a Veterinary Clearance from a Specialist Equine Veterinarian at Step 3.

HORSES THAT HAVE NOT RACED FOR 12 MONTHS OR LONGER

Statistical analysis has also identified that when a horse has not raced for 12 months or longer it is also at an increased risk of catastrophic limb injury during racing.

Because of these risks, the Australian Rules of Racing prescribe that for these horses a satisfactory Veterinary Clearance must be obtained, and the horse must also trial satisfactorily prior to racing.

Following a satisfactory trial and upon receiving a satisfactory post-trial veterinary examination report, the Stewards may grant written permission for the horse to be nominated for and participate in a race.

If a horse has been retired, trainers are reminded to advise RV and update the horse's Stable Return accordingly, as is required by the Australian Rules of Racing. If you have any questions, please contact veterinaryadmin@racingvictoria.net.au.

New Zealand Strangles Infection Alert

The threat of strangles is always present in Australia and the disease will likely never be eradicated.

It can occur at any time, but disease outbreaks are more common in warmer months. Racing Victoria (RV), conscious of the movement of horses between New Zealand (NZ) and Australia during the upcoming spring and summer months, would like to alert industry participants to the recent outbreak of strangles in NZ.

The NZ outbreak is extensive and does not include only thoroughbreds.

'Strangles' is the common name for the upper respiratory tract infection caused by one specific bacterium (*Streptococcus equi* subspecies *equi*; *S. equi*). It is a highly contagious, potentially fatal respiratory disease that can rapidly spread through direct contact with an infected horse or indirect contact with inanimate objects contaminated with the bacteria such as gear, buckets, vehicles, fences etc.

Horses become infected by inhalation or ingestion of the bacterium. Typical clinical signs may include fever, dullness, reduced appetite, swellings under and around the throat region, cough, and nasal discharge.

Infected horses may not initially show any clinical signs except an elevated temperature. The disease can quickly spread before it is recognised.

RV is committed to maintaining the optimal health and wellbeing of all active thoroughbreds in training by ensuring they are afforded the best level of care. RV strongly recommends quarantine and vaccination as the optimal methods to avoid outbreaks of Strangles which negatively impacts horses, racing and training, and industry participants.

Quarantine

RV strongly recommends that any new horse entering a premises is always isolated for a minimum of two weeks before entering the main stable and checked for:

Vaccination status; and

Evidence of disease including temperature checks daily.

Horses that travel to Australia from NZ are not required to undergo any mandatory quarantine period at a commonwealth approved quarantine facility.

Vaccination

Commercially available vaccine for horses is readily available from veterinarians or horse product suppliers. To be effective, the vaccine must be administered in accordance with the manufacturer's instructions.

The vaccine is claimed to reduce the likelihood of a horse becoming infected if exposed and reduce the severity of the disease if it does become infected. However, the vaccine should NEVER be administered to horses involved in a disease outbreak.

RV strongly recommends that all horses are fully vaccinated against Strangles and that reliable records are maintained. This will assist with management in the event of an outbreak.

If you have any questions, please contact veterinaryadmin@racingvictoria.net.au.

From the Stewards' Room

Mare Return and/or Foal Ownership Declaration

AR287 has been amended from 1 August 2026 to remove any ambiguity surrounding the registration of unnamed horses for racing in certain circumstances. The Racing Australia Board considered that the scope of the intended prohibition on registering a horse for “racing” required clarification, so that it applies to all forms of racing, trials, jump-outs, trackwork and training.

AR 287 Failure to lodge Mare Return and/or Foal Ownership Declaration

- (1) Except where Racing Australia, in its sole and absolute discretion, permits otherwise, an unnamed horse cannot be registered for racing under these Australian Rules unless a Mare Return and a Foal Ownership Declaration have been lodged in accordance with AR 285 and AR 286 respectively.
- (2) The discretion in subrule (1) may be exercised by Racing Australia in respect of matters occurring at any time, including prior to the commencement of that subrule.
- (3) Where a Mare Return and/or a Foal Ownership Declaration have not been lodged in accordance with AR 285 and AR 286 respectively, an owner of the horse must disclose that fact to any potential buyers prior to any sale of the horse.
- (4) For the avoidance of doubt, and further to the provisions of AR 294(5), where a Mare Return and/or Foal Ownership Declaration has not been lodged in accordance with AR 285 and AR 286 respectively, an unnamed horse is ineligible to:
 - a) race;
 - b) engage in any trial or jump-out;
 - c) engage in trackwork; and
 - d) be trained by a licensed person

Bleeders

Racing Australia recently amended AR 79 to remove an inconsistency relating to bleeding provisions. The rule now aligns the requirements for horses that have bled from one nostril with those that have bled from both nostrils, allowing either a satisfactory gallop of at least 1,000 metres or an official trial/jump-out, in the presence and to the satisfaction of a Steward, before being permitted to race again. This change ensures a consistent and streamlined approach to return-to-race requirements across both scenarios.

AR 79 Horses with bleeding

- (1) The appearance of blood at both nostrils, irrespective of quantity, is deemed to constitute an attack of bleeding unless, in the opinion of the Stewards, that bleeding was caused by external trauma.
- (2) If a horse has an attack of bleeding at any time it must be reported by the trainer to the Stewards without delay.
- (3) If a PRA advises in writing that a horse has had an attack of bleeding, that advice will be prima facie evidence that that horse has had an attack of bleeding.
- (4) A horse which, in the opinion of the Stewards, has had an attack of bleeding;
 - (a) for a period of 2 months after the attack of bleeding, must not, without the permission of the Stewards, be trained, exercised or galloped on a racecourse, recognised training track, private training establishment, or other place;
 - (b) must not start in any race for a period of 3 months, and then only after:
 - (i) a gallop of at least 1,000 metres; or
 - (ii) an official trial or jump-out:
 in the presence, and to the satisfaction of a Steward.
- (5) Following a horse having an attack of bleeding the Stewards must:
 - (a) retain a written record of the attack of bleeding and any related restriction imposed on the horse (and if applicable, also record that attack of bleeding and any restriction imposed in the horse's Thoroughbred Identification Card, which must be provided by the trainer to the Stewards as soon as possible after the attack of bleeding); and
 - (b) record any subsequent permission given for the horse to resume racing (and if applicable, also record that on the horse's Thoroughbred Identification Card, which must be provided by the trainer to the Stewards as soon as possible).
- (6) If a horse has more than one attack of bleeding, the horse is ineligible to start in any race.
- (7) If a horse displays blood at one nostril, the trainer must report that to the Stewards without delay.

(8) Unless the Stewards are satisfied that the presence of blood referred to in subrule (7) is attributable to external trauma, then before racing again the horse is required to

(a) Undergo a gallop of at least 1,000 metres; or

(b) participate in an official trial or jump-out; in the presence, and to the satisfaction of a Steward.

Horses Returning from Overseas

Trainers need to be aware of AR67 regarding horses returning from overseas. If they have a horse under their care which last started at an international venue they must contact the RV Stewards or Racing Operations Departments to ensure that all previous form is updated on the Racing Australia System.

Use of phone in mounting yard prohibited

Trainers and their representatives are reminded that they must restrict recording of riders' post-race comments to areas outside horse confines of mounting yard when horses return after race.

Reporting of offensive emails

Racing Victoria Integrity Department are aware of licensed persons receiving abusive emails from punters which have been aggressive and occasionally even threatening. Recipients of these emails are encouraged in the first instance to contact the Racing Victoria Intelligence Unit at intelligenceunit@racingvictoria.net.au. Racing Victoria Intelligence Unit are keeping a log of the emails and also where possible try to identify the author (which can be very difficult due to fake names and email addresses being used), some however have been identified and as a result action has been taken against them.

AR 79 HORSES WITH BLEEDING

- (1) The appearance of blood at both nostrils, irrespective of quantity, is deemed to constitute an attack of bleeding unless, in the opinion of the Stewards, that bleeding was caused by external trauma.
- (2) If a horse has an attack of bleeding at any time it must be reported by the trainer to the Stewards without delay.
- (3) If a PRA advises in writing that a horse has had an attack of bleeding, that advice will be prima facie evidence that that horse has had an attack of bleeding.
- (4) A horse which, in the opinion of the Stewards, has had an attack of bleeding;
- (a) for a period of 2 months after the attack of bleeding, must not, without the permission of the Stewards, be trained, exercised or galloped on a racecourse, recognised training track, private training establishment, or other place;
- (b) must not start in any race for a period of 3 months, and then only after:
- (i) a gallop of at least 1,000 metres; or
- (ii) an official trial or jump-out:
- in the presence, and to the satisfaction of a Steward.
- (5) Following a horse having an attack of bleeding the Stewards must:
- (a) retain a written record of the attack of bleeding and any related restriction imposed on the horse (and if applicable, also record that attack of bleeding and any restriction imposed in the horse's Thoroughbred Identification Card, which must be provided by the trainer to the Stewards as soon as possible after the attack of bleeding); and
- (b) record any subsequent permission given for the horse to resume racing (and if applicable, also record that on the horse's Thoroughbred Identification Card, which must be provided by the trainer to the Stewards as soon as possible).
- (6) If a horse has more than one attack of bleeding, the horse is ineligible to start in any race.
- (7) If a horse displays blood at one nostril, the trainer must report that to the Stewards without delay.
- (8) Unless the Stewards are satisfied that the presence of blood referred to in subrule (7) is attributable to external trauma, then before racing again the horse is required to
- (a) Undergo a gallop of at least 1,000 metres; or
- (b) participate in an official trial or jump-out; in the presence, and to the satisfaction of a Steward.

EMBARGOES AND VETERINARY CERTIFICATES

Trainers are reminded to ensure that any embargo or veterinary certificate which has been placed on a runner in their care has been lifted or submitted prior to accepting for any future race. If you have any queries, please contact the RV Stewards Department on 03 92584258.

USE OF PHONE IN MOUNTING YARD PROHIBITED

Trainers and their representatives are reminded that they must restrict recording of riders' post-race comments to areas outside horse confines of mounting yard when horses return after race.

STABLE EMPLOYEE REGISTRATIONS

Trainers, please be aware, that it is their responsibility to ensure all their stable staff have up to date Stable Employee registrations for the new season. Stewards will be conducting regular checks to ensure all registrations are up to date.

LR 74A PROCEDURE FOR HORSES CARRYING OVERWEIGHT IN FLAT RACES

Trainers and riders should now be aware of the following rule amendment which came into effect from 1 June 2025 regarding the procedure for horses carrying overweight in flat races. Previously, the process for managing rider overweights between acceptance time and race day lacked consistency across meetings and administrative clarity for participants and officials. This resulted in confusion, late changes, and perceived inequity. Consultation was undertaken with both the Victorian Jockeys Association (VJA) and the Australian Trainers' Association (ATA) and both stakeholder groups are supportive of the below rule amendments and its intended implementation. Additionally, a Board endorsed trial period was successfully conducted which demonstrated the effectiveness in streamlining processes and ensuring fairness. Following this trial period, feedback from stakeholders was positive and accordingly, The Racing Victoria Board has approved the following Local Rule of Racing amendments effective from 1 June 2025.

LR 74A PROCEDURE FOR HORSES CARRYING OVERWEIGHT IN FLAT RACES

- (1) Subject to the approval of the nominator or trainer of a horse engaged to race at a Victorian race meeting, a rider, excluding apprentice jockeys, may:
- a. declare up to 1kg overweight from the handicapped weight released at acceptances, provided that such declaration must be made by no later than 2:00pm on the day of acceptances.
- (2) If an overweight declaration is made, that declared weight will be published as the probable weight, with the weight confirmed at the time of weighing out for such race.
- (3) In accordance with LR 42, an apprentice jockey is not permitted to make an overweight declaration.
- (4) A claiming apprentice jockey may only replace the overweight rider on race day if no other rider is available to ride at the handicapped weight.
- (5) No overweight approvals will be granted for any rider declared to ride at a horse's true weight (Saturday Metropolitan Meetings only).
- (6) Subject to LR 74A (1)(a), the Stewards will not permit a rider to ride overweight except with the permission of the Stewards which may be granted only in special circumstances.
